## A middle east ART house offering a collection to the world

**S**TOP and SHOP for ART at ARTDIVANO, a Middle East ART house offering a collection to the World. ARTDIVANO's business concept stands strong on three main pillars of services namely ART CONSULTANCY, ARCHIVAL PRINT BOUTIQUE and ONLINE GALLERY.

ART CONSULTANCY entails development of an art program tailored to the client's requirement including design, customizing, production and installation of artworks whether in hotels or private residences. We have in-house expertise with a track record, Mrs Marion Labani Art Director has extensive experience in the Art Consultancy field and we have completed full art programs in Doha Double Tree Hilton Hotel, amongst Sofitel Resort and Spa Bahrain and the Majestic Arjan by Rotana Bahrain to name a few.

The ARCHIVAL PRINT BOUTIQUE has been successfully launched recently and offers Reproductions of Fine Art and Photography. Our in-house Reproductions are proudly "Made in Bahrain", museum quality certified to last for years. Mrs Afaf Zainalabedin, the Managing Director of ARTDIVANO says that this is a dream come true, "Marion & myself always felt a strong demand

Marion Labani, Art Director & Afaf Zainalabedin, Managing Director

for Archival Reproductions in the Region as well as offered internationally and are proud to have established the first ARCHIVAL PRINT BOUTIQUE in Bahrain".

ARTDIVANO has also launched the concept of "myPHOTObox" where a costumer image is boxed framed for table and wall art display. Orders can be placed by ARTDIVANO's Instastore via Instagram, which is a newly developed online shopping concept highly costumer friendly and easily accessible

Our ONLINE GALLERY aims to

house a collection of Middle Eastern Art presented worldwide and shall be launched in October 2015 on the occasion of Art Bahrain, where ARTDIVANO is participating with a selection by leading and renowned artists.

Our signature products are displayed via [instagram@artdivano](https://www.instagram.com/artdivano), [www.instastore.me/artdivano](http://www.instastore.me/artdivano) and [www.artdivano.com](http://www.artdivano.com)

## Hyundai reaffirms its position as one of the world's leading automotive manufacturers

**H**yundai has reaffirmed its position as one of the world's leading automotive manufacturers thanks to prestigious awards from international awards body J.D. Power. As part of the company's 2015 Initial Quality Study which surveyed 84,000 customers, the

Hyundai Tucson and Accent have been reported fewer problems with their vehicles than any other small SUV or small car, respectively.

Overall Hyundai ranked fourth among all brands in the J.D. Power

2015 U.S. Initial Quality Study SM (IQS) and second among non-premium automakers, putting the Korean brand ahead of its Japanese counterparts.

In total, Hyundai had four models ranking in the top two in their segments,

including segment awards for Tucson and Accent, and second-place finishes for Elantra and Santa Fe. The Hyundai overall score was 95 problems per 100 vehicles, 17 problems fewer than the industry average. The 2015 Hyundai Tucson was awarded for the highest initial quality in the small SUV segment and the 2015 Hyundai Accent earned the highest honour in the small-car segment for the second year in a row.

Jin (James) Kim, Vice President and Head of operations in Africa and the Middle East said, "The overall ownership experience of the people who buy our cars is based on our modern premium brand direction which provides vehicles with innovative technologies, while ensuring highest levels of initial and long-term quality and services they can rely on."

"SUV sales accounted for 21.9% of our total sales during 2014 (74,419 units) therefore the international recognition from our customers is invaluable. It is also worth noting that the Accent was our second bestselling model last as it recorded a boost of 9% totaling 79,013

units sold," added kim.

The 2015 IQS is based on responses from more than 84,000 purchasers and lessees of new 2015 model-year vehicles surveyed after 90 days of ownership.

## Volvo XC90 named auto express car of the year 2015

**T**he Volvo XC90 has been named Car of the Year 2015 and Large SUV of the Year at this year's Auto Express New Car Awards.

Volvo Cars' award-winning XC90 is already close to selling out its entire first year's planned production run of 50,000 cars. To date over 44,000 cars have been ordered.

"This award reflects the great passion that Volvo Cars puts into its new cars. We understand our customers' desire to have beautiful cars – cars that make their lives easier by delivering the latest technology but in a user-friendly manner. We also understand the driving need for powertrains that deliver efficient performance, and a chassis that provides a balanced and engaging driving experience," said Dr

Peter Mertens, Senior Vice President Research & Development at Volvo Car Group, accepting the award.

The all new XC90 is the first car to be built on Volvo Cars' Scalable Product Architecture (SPA) using its acclaimed Drive E powertrain technology.

A blend of rich Scandinavian design elements, both inside and out, makes the XC90 stand out from the crowd. Delivering a commanding road presence with the distinct 'Thor's Hammer' LED headlights and larger grille, the XC90's powerful exterior design makes a strong, yet subtle statement.

The interior's crowning glory is the in-car control system, Sensus. This intuitive system controls all the major functions of the vehicle, from the

infotainment, phone, navigation and connectivity features. The interior is the epitome of Scandinavian design, a serene and relaxing environment, combining the finest natural materials available such a leather and wood, and at the same time being a practical seven seat SUV.

## The future of mobility is ready to hit the road

**T**he new Toyota Mirai hydrogen fuel cell electric vehicle will offer an EPA-estimated 67 miles per gallon equivalent (mpge) city/highway/combined when it hits dealerships in California this fall, and an EPA-estimated driving range

rating of 312 miles on a single fill of hydrogen.

The world's first mass-produced hydrogen fuel cell electric vehicle, the Toyota Mirai is a four-door, mid-size

sedan with performance that fully competes with traditional internal combustion engines - but uses no gasoline. Instead, Mirai creates electricity on demand using hydrogen, oxygen and a fuel cell, and emits nothing
